

THE SEARSON FAMILY

FUNERAL SERVICE

'We don't just arrange funerals, we create meaningful days'

THE UNATTENDED FUNERAL EXPLAINED

The Unattended Funeral, or Direct Cremation, provides a more affordable alternative to the traditional, full service funeral, without compromising on the quality of care. It can be arranged with the minimum of personal involvement, you don't even have a need to visit our Funeral Home, and the price is inclusive of all essential elements necessary to carry out the funeral. The Unattended Funeral is our most simplistic option, it takes away the need to follow the typical pomp and ceremony, and is selected by families for various reasons. Ultimately, being an Unattended Funeral, there is no service, no family or friends will gather and everything is carried out behind closed doors. Even though you will not attend the Crematorium this doesn't prevent you from gathering with family and friends at a separate venue where you are free to commemorate and mourn your loss with freedom to share memories, and honour the life in a more fitting way.

WHAT IS INCLUDED?

The Unattended Funeral includes the following:

We provide for all necessary arrangements, either at our Funeral Home or over the telephone. We collate all the required documentation and liaise with the Crematorium to complete the Application for Cremation. The Crematorium we use will be at our discretion but you will be notified where the Cremation will take place. We also provide for the collection of your loved one from the place of death and return them into our care. This is within normal working hours, an additional charge will be made if we attend outside these hours. Once in our care, we will provide dedicated Temperature Controlled Facilities to hold them, with dignity and respect, until the day of Cremation. We will convey the coffin to the Crematorium in one of our vehicles, and once the Cremated Remains are available, typically within forty eight hours, we will have them returned to our Funeral Home for you to collect at your convenience.

WHAT IS NOT INCLUDED?

The Unattended Funeral does NOT include:

The Unattended Funeral doesn't offer any visiting in our Chapel of Rest although this can be provided at an additional cost. This service also prevents any attendance by family and friends. Even though we inform you of where and when the Cremation will take place, each Crematorium have their own rules on families gathering when we arrive. Ultimately, attendance of the Service Hall is not permitted. The choice of coffin will be simple, and in a style and material at our discretion. However, we are able to extend an array of commemorative options for use at an alternative time and venue such as Memory Books, Portraits, Poem Cards and Audio Visual Tributes and we will discuss those options with you. We also return the Cremated Remains in the cardboard box provided by the Crematorium but there are numerous alternative choices at an additional cost.

Should you wish to learn more about our Unattended Funeral option, please speak with a member of our team. They will be happy to talk through your options and provide you the opportunity to make an informed decision.
